Eaves ceiling panel structure in house - has eaves ceiling panels arranged along width direction of eaves on ceiling panel bodies and coupled by fixed couplings

MISAWA HOMES CO LTD 96.08.02 96JP-204747

(98.02.17) E04B 9/30, E04F 10/08

The structure includes multiple ceiling panel bodies (24) whose ends (26) are installed on the eaves front side and the external wall side, respectively. Multiple eaves ceiling panels (20) are arranged on the ceiling panel bodies along the width direction of the eaves and coupled by fixed couplings (30).

ADVANTAGE - Eases attachment. Reduces construction time. Improves work efficiency. (8pp Dwg.No.1/8)

N98-151142
